

## UI TO INTERACT WITH APPLICATION

Team ID	PNT2022TMID32201
Project Name	Personal Expense Tracker Application

The screenshot displays the Visual Studio Code editor interface. The top bar shows "Nov 15 3:39 PM" and "Index.html - Untitled (Workspace) - Visual Studio Code". The Explorer panel on the left shows the project structure, including folders for "static", "media", "script", "templates", and "Registration". The "Registration" folder is expanded, showing files like "bg1.jpg", "index.html", and "style.css". The main editor area displays the source code of "index.html", which is an HTML document for an "Expense Tracker". The code includes a DOCTYPE declaration, HTML and head tags, meta tags for charset, compatibility, and viewport, and a title "Expense Tracker". It also includes a link to a Bootstrap CSS file and a script for Bootstrap JavaScript. The body contains a "content" div with a "content box" containing a "head" heading "Please Login" and a form with email and password input fields, a "Login In" button, and a "Sign Up" button. The status bar at the bottom indicates "Ln 1, Col 1 Spaces: 4 UTF-8 LF HTML".
